

## HARVARD ED PORTAL

# A place for everyone

The Harvard Ed Portal is a transformative place where the Boston community immediately adjacent to Harvard University (Allston-Brighton), and the University community come together to share ideas, and learn from one another. We solicit input from residents, community partner organizations, and local Boston Public Schools as we work to create impactful programming. Harvard students and faculty have opportunities to develop and support new initiatives in K-12 education, career and economic development, personal wellness, digital and online learning, and the arts. The Harvard Ed Portal seeks to open new doors for everyone in our shared community.

### Free Events

Allston-Brighton residents and students and families of BPS schools may enroll in our programming and scholarships at no cost.
